DT Global Condemns Violent Attack on American Democracy

WASHINGTON, DC. (January 7, 2021) – Yesterday we witnessed a horrific and egregious attack on our nation’s capital, the symbol of our democracy. DT Global condemns all acts of violence. Democracy stood strong despite armed insurgents attacking the very stronghold of our government. This was a reprehensible attempt to upend the necessary process of affirming the election of President-Elect Biden and Vice President-Elect Harris. In the face of brutality, Congress and democracy overcame this threat to complete the Electoral College certification just before 4am this morning.

While our city remains in a state of emergency, DT Global is proud to see our Constitutional process of law and order, and democracy as a whole, held firm and remained victorious. As a values-driven organization, DT Global promotes civility and encourages diversity of opinion. We are proud to see the same democratic values that we have extolled around the world for decades standing firm right here in the United States, even in the wake of such a dark day in our long and illustrious history. We look forward to a peaceful transition of power and our thoughts are with law enforcement, members of Congress and their staff, and all those impacted by yesterday’s shameful events.

About DT Global

With corporate offices in the USA, Spain, and Australia, DT Global’s portfolio spans more than 90 countries, with dedicated project offices in 31 countries and over 500 talented technical experts in every region of the world. The DT Global family – made up of DT Global, the non-profit DT Institute, and the GPD Charitable Trust – represents an international cadre of development practitioners with best-in class technical expertise to deliver innovative solutions across sectors. This worldwide presence enables DT Global to rapidly mobilize resources and adapt programming for greater impact. DT Global is pioneering a new way of doing international development and transforming lives beyond expectation.
