

USAID Climate Ready for Big Ocean State Sustainability

Overview

The USAID Climate Ready BOSS Project

strengthens the adaptation and mitigation ability of national governments and regional organizations in the Pacific Islands by mobilizing climate finance and improving climate finance management.

Goal

• Strengthened capacity of Pacific Island Countries to adapt and respond to climate and disaster impacts.

Objectives

- Mobilize climate finance from public and private sources.
- Improve climate finance management through institutional strengthening and enhancing the enabling environment.
- Effective and streamlined coordination of climate finance through various partners and access modalities.
- Inclusive and equitable participation of indigenous communities and those most impacted by climate change, including women and children.

Timeframe:

• August 2024 - August 2029

Total Funding:

USD 43.34 Million

Main Expected Results

- USD 1.05 Billion in climate finance mobilized
- 50,000 people with increased resilience
- 5,000 people trained in climate change adaptation
- 165 institutions with improved capacity to address climate change
- 65 policies and strategies developed
- Strengthened inclusion, equity and coordination of climate finance

Implementing Partner:

• DT Global

Technical Partners:

- CrossBoundary Group
- Pollination Group
- Hua Nani Partners

Target Countries:

- Federated States of Micronesia
- Fiji
- Kiribati
- Republic of the Marshall Islands
- Nauru
- Palau
- Papua New Guinea
- Samoa
- Solomon Islands
- Tonga
- Tuvalu
- Vanuatu

Level 2, LICI House, 11 Butt Street, Suva, Fiji
