

Graduate Development Program

Advancing careers for
tomorrow's leaders

APPLY NOW!

Australia's Economic and Social Infrastructure Program is now accepting applications for its Graduate Development Program based in Port Moresby.

As a successful applicant, you will work on projects that improve the daily lives of Papua New Guineans in fields such as renewable energy, building social infrastructures and repairing major electricity grids that power PNG.

Eligibility criteria

Recent graduates from 2023 to 2025 who meet the following criteria can apply.

Hold a bachelor's degree across:

Engineering

Electrical or civil and mechanical

Statistics and/or monitoring and evaluation

Construction management

Communications for development

Environmental science

Sustainable development or renewable energy

Humanities and social sciences

Program duration

The Graduate Development Program runs on a full-time basis from October 2025 to October 2026. You will unlock learning and development opportunities, enabling you to manage real-world projects and be mentored by proven industry leaders.

Apply now

Apply by 27 July 2025 at <http://bit.ly/3lfBJ7M>. Email graduate@esip.org.pg for enquiries and updates on information sessions.
