

A Force for *Positive Change*

DT Global is shaping a future where sustainable development and innovation empower individuals, communities, and nations. We work in partnership with local stakeholders to foster inclusive prosperity, social equity, and environmental stewardship. Our global team of 2,500 staff and experts, with experience in over 100 countries, solve complex problems in the peacebuilding, governance, economic development, environment, and human development sectors. With a track record of technical excellence and more than 60 years of international development experience and relationships, we deliver innovative solutions that transform lives.

What We Do

From early-stage crisis and stabilization assistance to economic development, governance, engineering and infrastructure, digital platforms, and environmental work, DT Global meets communities where they are on the development spectrum and helps them move to where they want to be. We deliver solutions across six principal development areas:

Conflict Prevention,
Stabilization &
Transition

Economic
Growth
& Trade

Environment &
Infrastructure

Governance

Human
Development

Cross-cutting
Capabilities

By the Numbers

Our worldwide presence enables DT Global to rapidly mobilize resources and adapt programming for greater impact.

Our Difference

- **Learning and Adaptation:** We conduct on-the-ground research, utilize cutting edge methodology, and prioritize high quality Monitoring, Evaluation, and Learning systems to ensure our projects are constantly adapting in the face of shifting realities and complex challenges. Technical knowledge and expertise—coupled with in-house data analytical capabilities—supports strong project design, innovation testing, impact measurement, and high-quality programming.
- **Innovation for Good:** Our catalytic innovation unit is closing the gap between talk and action. We encourage staff to collaborate and generate new ideas, to co-design and experiment with new solutions, and to widely share evolving best practices. We emphasize Learning & Innovation in everything we do—adapting programs quickly to incorporate lessons learned in real time and guarantee technically excellent program delivery.
- **The Global Platform:** We have five geographic hubs and more than 2,500 staff, but we prioritize working as One DT Global. This means sharing technical, operational, and financial best practices; creating pathways for staff exchanges and mobility; and implementing learning and development effectiveness practices across our company.
