Cambodia, Lao PDR, Thailand and the Philippines

Ad Title:
EOI - Land Transport Portfolio Delivery Panel (SEA-LT-001-P4I-04)

Program Background
Partnerships for Infrastructure (P4I) is an Australian Government initiative supporting quality, inclusive infrastructure development across Southeast Asia. P4I works with partners to strengthen policy and regulatory frameworks and address barriers to infrastructure project development, with inclusion and climate considerations integrated throughout. P4I is seeking expressions of interest from organisations to form a panel of land transport advisory and delivery providers, supporting activities in Cambodia, Laos, Thailand and the Philippines.

About DT Global Asia Pacific

At DT Global Asia Pacific, we aim to positively impact people's lives through delivery excellence. As a leading implementing partner across Asia and the Pacific, we co-create locally led solutions in partnership with governments, communities, and stakeholders. We bring together talented teams and deep regional expertise to deliver initiatives that promote inclusive economic growth, essential services, and resilient, secure communities. With over 1,500 staff, experts in 22+ countries and more than 60 years of development experience, we tackle complex community, national and transnational challenges — from governance and justice systems to climate resilience, infrastructure and social equity — with innovative thinking and a commitment to long-term impact.

The Opportunity
This is Stage 1 of a two-stage process to establish a Land Transport Portfolio Delivery Panel. Stage 1 is an open Expression of Interest (EOI) that assesses respondents on capability, capacity and integrity. A Request for Tender (RFT) will then be issued only to respondents selected from the EOI, to establish the panel. Individual activities will be sourced from the panel as they are scoped. The indicative planning estimate for the whole panel over its term is AUD $15 million, with no guarantee of work volumes.

Respondents assess themselves against six capability areas:

A: Resilience and Asset Management

B: Infrastructure Investment, Funding and Financing

C: Project Development and Delivery Advisory

D: Supply Chains, Freight and Connectivity

E: Transport Systems and Emerging Priorities

F: Functional capabilities

Respondents do not need to cover every area. P4I welcomes responses from specialist, niche and local organisations as well as larger multi-capability firms, and from individuals trading under their own ABN or equivalent business registration. Respondents are assessed item by item on delivered work and suitable personnel, and must provide an insurance statement. Meeting the thresholds does not guarantee an

invitation to the RFT: P4I may limit the number of respondents invited, selecting by item against criteria published in the EOI. Consortia and joint ventures are not accepted at EOI stage.

Interested suppliers should have demonstrated experience delivering work relevant to land transport; see the EOI for the full thresholds and requirements.
